- Database Replication
The Fivetran Platform manages the World's Largest Workloads with Numerous Database Replication Methods (including Change Data Capture) to power your Real-Time, Low-Impact Data Movement.

* Fully Managed
Fivetran Cloud-Hosted - you can choose the Cloud Service Provider and Region - for a Fully Managed and Automated Data Movement Experience.

* Hybrid
Control when and how Data moves from your On-Premises Environment to the Cloud for Efficient and Secure Database Replication.

* Self-Hosted
Prevent Data from leaving your Environment by deploying Fivetran in your VPC or On-Premise to meet the Strictest Data Movement Requirements.

- Powering Every Data Initiative

* Centralizing Data
Bring your Data together for Advanced Analytics and unlock Insights for your Business.

* Modernizing Infrastructure
Migrate your Operations to a More Reliable, Fast Cloud-Based Infrastructure.

* Democratizing Data
Achieve Self-Service Analytics by removing Bottlenecks without compromising on Compliance.

* Building Data Solutions
Extend the Fivetran Platform to support your Custom Needs.

.../...

- Fivetran Itself:
Headquarters in Oakland (California). Offices in London, Dublin, Amsterdam, Munich, Serbia.
From Childhood Friends to Co-Founders of a $5.6 Billion Company, George Fraser and Taylor Brown started building the Foundation of Fivetran at Y Combinator in 2013 and have grown it into a Global Enterprise with 1,200+ Employees Worldwide.

Fivetran began with a Realization: for Modern Companies using Cloud-Based Software and Storage, Traditional ETL Tools Badly Underperformed, and the Complicated Configurations they required often led to Project Failures. Fivetran now serves Thousands of Customers and Hundreds of Leading Brands Across the Globe, including ASICS, Autodesk, BJ's Restaurants, Conagra Brands, Forever 21, JetBlue, Lionsgate, Lufthansa, Morgan Stanley, Square, Sherwin Williams, Urban Outfitters and Ziff Davis.
